Noida, India

+91 7634827473 | shivamkumar.byte@gmail.com | github.com/shivamkumartech

TECHNICAL SKILLS

Languages: JavaScript, HTML, CSS

Frontend: React.js, Tailwind CSS, React Router

Backend: Node.js, Express.js, REST APIs

Database: Mongoose, MongoDB

Tools & Platforms: Git, GitHub, Postman

PROJECTS

Daykeep | [Live](#) | [GitHub](#)

React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Engineered a **full-stack note-taking** platform using the MERN stack, featuring a responsive React frontend and modular RESTful backend architecture
- Implemented secure **JWT-based authentication** with short-lived access tokens, HttpOnly refresh-token cookies, bcrypt hashing, and refresh-token rotation to strengthen session security
- Architected a **user-scoped system** using Express.js Controller–Model–Route patterns, ensuring authenticated users can securely create, update, retrieve, and delete their own notes
- Integrated **MongoDB with Mongoose** for validated data persistence, input trimming, automatic timestamps, and structured user-note relationships
- Deployed the application on **Vercel and Render**, configuring production API proxying, secure HttpOnly cookies, CORS, environment-based configuration, and SPA routing

AI Code Reviewer | [Live](#) | [GitHub](#)

React, Node.js, Express, Google Gemini

- Developed and deployed a full-stack AI code-review platform integrating the **Google Gemini API** to analyze submitted source code and generate structured feedback on code quality, security, performance, and maintainability
- Structured a modular Express backend with separate routes, controllers, and services, isolating the Gemini API integration in a dedicated service layer with environment-based configuration
- Built a custom **useCodeReview** React hook to manage code input, API requests, review results, loading states, and error handling, keeping application logic separate from UI components
- Designed an interactive code-submission interface using **PrismJS** for syntax highlighting and Markdown rendering for AI-generated reviews, presenting refactored code suggestions in clearly formatted blocks
- Implemented persistent dark/light theme support using the React Context API and localStorage, while organizing the frontend with reusable components for a consistent user interface

EDUCATION

Master of Computer Applications – CGPA: 7.7

2023 – 2025

GL Bajaj Institute of Technology and Management

Greater Noida, UP

Bachelor of Computer Applications – 75.15%

2019 – 2023

Babasaheb Bhimrao Ambedkar Bihar University

Muzaffarpur, Bihar
