TECHNICAL SKILLS

Languages: JavaScript, HTML, CSS

Frontend: React.js, Tailwind CSS, React Router, React Native

Backend: Node.js, Express.js

Database: Mongoose, MongoDB

Tools & Platforms: Git, GitHub, Postman

EXPERIENCE

React Native Developer Intern

July 2025 – Oct 2025

Mobiloitte

New Delhi, Delhi

- Developed and maintained cross-platform mobile features using React Native under production-grade workflows
- Collaborated with the design and backend teams to build responsive UI components and integrate REST APIs
- Debugged and fixed layout responsiveness issues on both Android and iOS, eliminating critical UI bugs before release
- Worked with Git & GitHub for version control, code reviews, and feature branching in an agile environment

PROJECTS

RecipeFinder | [Live](#) | [GitHub](#)

React, Tailwind CSS, JavaScript (ES6+)

- Built a recipe discovery web app integrating TheMealDB's API, enabling instant search, detailed recipe views, and random discovery across **500+ recipes**, eliminating manual browsing
- Designed a fully responsive, mobile-first UI with a custom Tailwind CSS v4 design system and a library of 6+ reusable components
- Extracted data-fetching and state logic into a **custom React hook**, decoupling UI components from API calls and eliminating duplicate logic
- Implemented an accessible modal recipe-detail view with keyboard (Escape) support and **skeleton loading states**, reducing perceived load time during API calls

NoteNest | [Live](#) | [GitHub](#)

React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Engineered a responsive full-stack note-taking platform utilizing the **MERN stack** with a decoupled frontend-backend architecture.
- Implemented global state management using **React Context API** to manage application state efficiently, reducing component coupling and eliminating external library overhead.
- Structured the application layout using **React Router DOM v7** nested layouts and reusable UI components, improving code reusability and simplifying page-level routing.
- Designed a modular **RESTful API** on Express using a Controller-Model-Route pattern, facilitating clean handling of real-time CRUD operations.
- Integrated **Mongoose ODM** to interface with MongoDB, implementing input trimming validators and auto-generated audit timestamps (createdAt/updatedAt) for database integrity.

EDUCATION

Master of Computer Applications – CGPA: 7.7

2023 – 2025

GL Bajaj Institute of Technology and Management

Greater Noida, UP

Bachelor of Computer Applications – 75.15%

2019 – 2023

Babasaheb Bhimrao Ambedkar Bihar University

Muzaffarpur, Bihar
